About Us

Gemba® is full IT Service Provider, offers organizations the technology, content and expertise for featuring comprehensive IT and Business Services through AI and Machine Learning, automation and advanced Analytics for performance driven and holistic digital transformation projects to evolve companies to an intelligent Enterprise.

We deliver full stack end-to-end SAP and Oracle services with our certified and experienced consultants. We already have a decent number of reference customers and a Net Promoter Score that we are proud of.

YOUR TRUSTED PARTNER IN TECHNOLOGY

BI Analytics

Power BI

Make Smarter Decision Faster with Analytics Dashboard As a Analytic tool that transforms data into actionable insights, that allows users to create insightful, easy-to-use and intuitive BI dashboards.

Self Service BI
Create and share compelling reports and interactive dashboards in a matter of minutes.

Simple to use
Creating informative dashboards is now simpler with Tableau's drag-and-drop user interface.

Aesthetically beautiful
Share insights more effectively and increase retention and appeal with eye-catching data visuals.

User-friendly
Easily format text, insert images and add widgets with a designer friendly layout.

Data-driven decision making
Visual presentation of data enables leaders to grasp concepts and make smarter decisions rapidly.

Real-time insights
All dashboards are hosted on-cloud and can be autosaved; so you can resume work anytime, anywhere
